

# Medici Compare and Contrast

You have now watched three videos on the Medici family, as well as read about them in your textbook. You are now to pick ONE of the following Mafia/Gang groups, and compare them to the Medici.

You may look at similarities and differences such as: rise to power, how they held power, their loyalties, their infiltrations, their “family” role, or their demise.

Please select two of the above options to write about for your multi paragraph response. Remember that means you have an introductory paragraph, two bodies (one per point), and a concluding paragraph. Your introduction should have a hook, generic statement, names of sources, thesis, and concluding point. Your bodies need intro and concluding sentences and then evidence in the middle. And finally, your concluding paragraph needs to restate the thesis and main points you made and then draw a conclusion.

**Your total mark will be out of 28.**

- Society:** roles, interactions..... /6
- Environment:** impact on society..... /6
- Politics:** impact on government and law..... /6
- Grammar/Structure**..... /10
